EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. The application has been amended as follows.

In the Claims

In claim 1, line 11, before the word "least" insert --at--.

In claim 1, line 11, change "sidewall" to --side wall--.

These changes are necessary to make the claim grammatically correct.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance. The prior art does not disclose a miniature flashlight with the following features:

1) the mounting clip having a projection extending therefrom in a first direction into the recess, the recess having a resilient, deformable side wall, at least one tab on one of the projection and the side wall, and at least one flange on the other of the projection and the sidewall, the at least one tab and the flange being engageable by a snap fit for maintaining engagement of the projection in the recess, the deformability of the side wall allowing the projection and tab to be disengaged from each other by exertion of a bending force to effect relative bending of the case and the mounting clip as recited in claim 1;

2) the projection having a main body and a pair of flanges, the flanges being disposed on opposite sides of the main body, and in which the recess has opposed interior side walls and retaining tabs formed on the side walls and engageable respectively with the flange whereby the projection fits the recess with a snap fit as recited in claim 5; and

3) the projection having an elongated main body and a pair of flanges, the flanges disposed on opposite sides of the main body, in which the recess has opposed interior side walls and retaining tabs formed on the side walls and engageable respectively with the flanges as recited in claim 7.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
